Pencil sketches and drawings are typically the first visible physical existence of a new creative idea. Sketching is a portable and economical art form, this may be the avenue of expression that you have been waiting for. Learn to see the world around you with a new awareness as you learn about drawing skills that are already within you. “Sight” drawing lessons and daily sketching practice will guarantee that you find a noticeable improvement in the dexterity of your mind and hands as you learn.

basic drawing concepts with play exercises and home projects every other week.

Costs: \$5 ea session

Supplies: \$20 worth of supplies covers all that you will need for drawing on your own.

You will probably want an old fishing lure/tool box to put your supplies in, regular #2 writing/drawing pencils, other erasers, sharpeners, and smoothing stumps.

Please bring items, subjects or pictures that you want to draw, and a good joke if you got one.
